

## MARINE PERSONNEL CARRIER (MPC)

---

The Marine Personnel Carrier (MPC) will serve as a medium lift personnel carrier and complements the capabilities offered by the Joint Light Tactical Vehicle for light lift purposes and the Expeditionary Fighting Vehicle (EFV) for heavy lift purposes.

### OPERATIONAL IMPACT

Although no design decisions have been made, the MPC will be lighter than the EFV and capable of carrying nine to twelve combat-equipped Marines.

### PROGRAM STATUS

The MPC is currently in the Technology Demonstration Phase (TDP) pre-Milestone A. The MPC program is undergoing an Analysis of Alternatives which will lead to a capabilities development document (CDD) in fiscal year 2008.
